

Technical Officer Report to SCOA AGM June 2026

SCOA currently have 2 Grade A, 13 Grade B and 15 Grade C controllers (one of whom is only happy to work in an advisory capacity).

Over the last year three Controllers courses have been held, resulting in one appointment, however we have a number of potential controllers or upgrades “in the wings” awaiting gaining the required experience. A couple of these attendees were actually members of another association so I am don’t know whether they have applied to their Association for appointment or not.
