

Technical Officer Report to SCOA Committee September 2026

I held a training course for two potential Grade C Controllers in July.

No applications for appointments from either of this years two courses yet, but we can only hope they will come in due time.

I have approved officials for November Classic 2026 and have had some partial information for their CS Cup heat in February next year. I also have approved officials for a Level B urban for TVOC for October 2027 (yes next year, very efficient).

I haven't had information about Concorde Chase 2027 yet, I will follow-up on this with BKO.
