

Chair's Report – Mar 2019

Sarum

Sarum have informed us that they had a committee meeting in which they have decided not to continue to be a member of SCOA.

BSOC 2019

We had a response from Natural England about Greenham Common. They have, in effect, said that it would be impossible for Orienteering events to be held on the area. I have passed this over to BADO for them to try and pursue further as it is their area.

I have obtained permission for us to use Black Park for the event and went to see the manager there last week to discuss the event. They are happy to let us hold the event and will be able to cope with the coaches and mini-busses and have a suitable area for assembly. Black Park is probably a better area to hold the event as it has a good path network which is required for the multiple White and Yellow courses that are required. We need to put officials in place for this.

DIO Land Charges.

The discussions between Peter Hart and the DIO are still ongoing with no progress from our point of view.
